Explanation & Resolution

Explanation of the Problem

Hail damage present to windows and roof around home. Insurance refused to acknowledge damage to anything. Sent engineer out who works for insurance company to turn us down. No help. Contractor sent in proof of damage as well.

What do you want the company to do?

Pay for my window replacement since I pay for insurance for this.

To whom it may concern,

Pat from Legacy helped us created the Consumer Assistant Request this morning and we wanted to provide additional information.

Our property was damaged by wind/hailstorm last year. There is obvious evidence of dents on many windows: there are photos from our documents submitted to Farmers and from their own engineer reports. But they still denied the claim.

After we received the denial letter on 11/4/2024 and the photos associated the report on 11/7/2024, we requested a meeting with Nic Brau, the Farmers' adjuster but it was rejected (refer the attached doc, named ConsumerAssitantRequest).

We submitted additional facts/evidence on 1/31/2025 and 2/10/2025 and requested Farmers' to review them and reevaluate the claim, they refused to do so (refer the attached doc, named ConsumerAssitantRequest).

On 5/28/2025, we went to our agent's office to share the new facts and requested Farmers to respect all the facts and evidence and give a fair treatment of our claim. Our agent uploaded the new fact and asked the claim team to review them. There has been no feedback from Farmers as of today. They refused to respect the facts/evidence again.

We need your help to get this issue resolved. We pay insurance to get the coverage for damages caused by natural events such as wind/hailstorm. We are doing our part by paying the premium on time and they need to do their part to cover the hail damage to our property.

Attached are some related documents. Due to size constraint, one more document will be attached in a separate email. Please let us know if there is any questions or any information is needed.

Thank you very much for your attention and assistance on this matter.

Yibiao Lu & Jie Hu
17756 George Moran Dr
Eden Prairie, MN 55347

We are writing to provide additional information and request to re-open the claim.

The following conclusions are from the report created by PRIEVE ENGINEERING LLC

- In their opinion, there is no hail in Eden Prairie after 2020.
    - In the last paragraph on page 6 of above report, it says “Similar past estimated hail appears in a summary from the NOAA Storm Events Database with most recent hail in Eden Prairie reported in 2020”
    - The first conclusion on page 7 of above report, it mentioned again that “Past storm data indicates a storm occurred on or around August 9, 2020 in the area”
- In their opinion, as stated in page 7 (conclusion 2), there is no newer damage after 2020: “It is our opinion that no other damage occurred to windows around the home due to hail …”.

We don’t agree with their conclusions:

- There have been several major storms since 2020 (attached: ResponseToFarmer-01-31-25-StormsAfter2020.pdf)
- There are damages to areas where Farmers themselves agree were not present in 2020 (attached: ResponseToFarmer-01-31-25-DamagesAfter2020.pdf).

The windows are severely damaged by the hail. We have been a customer with Farmers for long time and always pay the premium of property insurance on time (there is an escort account with mortgage for property tax and property insurance). We need your help to review the additional information/evidence provided with this letter and approve to replace the damaged windows and doors.

Best Regards.

Yibiao Lu and Jie Hu

FIE 1102

Activities regarding the claim

- On 8/9/2024: Mary of Legacy called us. We found the leaking to the windows.
- 0n 8/13/2024: Jack from Legacy stopped by our property. He also found a dent to the windows and helped us to open the claim with Farmers.
- On 8/19/2024: we called Farmers for status update.
- On 8/19/2024: Farmers called back and told us that the Inspection will be done by Hancock Claims Consultants.
- On 8/20/2024: we called Hancock and gave them the contact from Legacy to schedule the inspection.
- On 8/29/2024: Jayden Grimm of Hancock Claims Consultants came to perform the inspection.
- On 9/3/2024: We got a phone call from Farmers and was told the claim was denied.
- 0n 9/5/2024, we submitted photos of hail damages to windows to Farmers.
- On 9/5/2024, Farmers re-opened the claim
- On 9/5/2024, Farmers adjuster Nic Brau called to schedule the second inspection.
- 0n 9/6/2024, Nic came to perform the inspection. We showed him the window leaks and the external hail damages to the windows. We found some new dents together.
- We continued to look for hail damage evidences and sent additional photos of evidences to Nic on 9/8/2024, 9/10/2024.
- On 9/10/2024, received an email from Nic that Farmers would hire another inspector, Nathan Prieve, to inspect the windows.
    - On 9/16/2024, the schedule with Nathan was setup for Nathan to come on 10/9/2024
- On 9/11/2024, we stopped by our agent's office. Peter Pietila (our agent) said damages need to be documented before inspector comes.
- We continued to spend early morning before work and late evenings after work to look for hail damage evidences on the windows that we can reach and created an document.
- On 10/9/2024, Nathan came to perform the inspection. We handed him a copy of the document upon his request.
- On 11/4/2024, the claim was denied again by Farmers.
- On 11/7/2024, We talked to our agent Peter and he sent us the Report from Nathan with all the photos attached.
- On 11/8/2024, after reviewed the report and photos, we wanted to talk to Nic for our questions. We sent an email to request a meeting with him.
    - On 11/11/2024, we got response from Nic: "I have received your email and we have already responded with our finding/outcome in the letter/engineer report that I have attached and that was sent to you on 11/4/2024."
- On 11/19/2025, Filled complaint with Commerce Department

claim number 7007986837-1

New damage to areas outside of Farmer's 2020 own assessment

When we file the hail damage claim on 2020, the following hail damages were identified and approved by Farmers, as showing in FinalDocument.pdf for 2020 hail damage claim:

- 2 window sashes
- Roof
- Gutter
- Garage Door
- Front Door

As shown in the above document, there were only damages to 2 sashes. No damages were found to other windows. This means all the dents are newer, occurred after 2020.

Due to pandemic, we had to request for extension to get the work done:

From: **Ryan Gagner** ryan@inclineexteriors.com

Date: October 7, 2021 at 11:36 AM
To: myclaim@farmersinsurance.com, Bill Lu bill_y_lu@yahoo.com

RG

Hello!-
Please release any remaining depreciation remaining on the roof/gutters all work on the roof and gutters is complete.

We are working with metro garage door for the garage doors and with kelly enterprises on the windows/doors and we'll likely need an extension for those items.

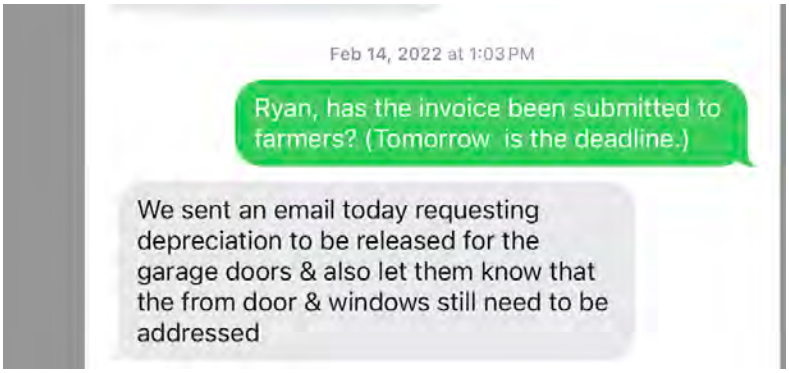
Metro say's roughly 12 weeks once they order a door & on the front door & window(s) could be roughly 8-12 weeks.

Thank you for any consideration regarding timing on this project! Please call or email me with any questions.

Ryan Gagner
612-267-3133

Incline Exteriors
143 Oak St
Excelsior, MN 55331

Even with this extension, our contractor couldn't get work done with the 2 sashes, and the door replaced. We asked for second extension, but it's not approved. We run out of time to replace those 2 sashes and the front door.



Subset of the photos of newer hail damages

Dents to the window (west facing second floor bedroom, above dining room)

Dent to windows of family room

Master Bedroom

Subset of photos from the PRIEVE ENGINEERING LLC's report also shows newer hail damages:

RE: Response to Inspection Report
Insurer: Farmers
Claim #: 7007986837-1

To Whom It May Concern:

First, we wanted to thank Commence Department of MN for taking time to investigate the complaint and giving us the next steps to take. Secondly, we wanted to thank the City of Eden Prairie for compiling the list of houses in our neighborhood that have exterior work done in the last two years; so, we don't need to knock on everyone's door, saving us lots of time in this cold winter:

- We knocked the doors of over 40 neighbors from Tuesday (2/4) to Friday (2/7) evenings.
- We were able to talk to 19 of them.
- Among 19 homeowners in the neighborhood, 14 of them confirmed that their work were due to hail damage. Some of the claims were for the storms occurred in 2024 and others in 2023 (please refer to the second and third page of this letter for details).
    - There were hailstorms in our neighborhood in 2024 and 2023.

Weather data from various sites provide valuable reference but they can't track every hailstorm occurs at every specific location. Even the most advanced AI technology can't do it. As above shows, there were multiple hailstorms in our neighborhood in 2023 and 2024 and caused damages to roofs, sidings, and windows.

The dents observed in our property are all from hails. We have been with Farmers since we purchased the property in 2014 and made hail claims in 2015 and 2020:

- There were no dents observed during 2015's hail claim inspection.
- The only dents found in 2020 were for 2 sashes as showing at the inspection report from 2020 hail claim.
- All other dents are newer therefore they can't come from the installation of the windows or at the time of construction of the home.
- We are living in a very safe neighborhood, The cause of the dents can only be the hailstorm.

Please review these new facts and re-open the claim.

Regards

Activities regarding the claim

- On 8/9/2024: Mary of Legacy called us. We found the leaking to the windows.
- 0n 8/13/2024: Jack from Legacy stopped by our property. He also found a dent to the windows and helped us to open the claim with Farmers.
- On 8/19/2024: we called Farmers for status update.
- On 8/19/2024: Farmers called back and told us that the Inspection will be done by Hancock Claims Consultants.
- On 8/20/2024: we called Hancock and gave them the contact from Legacy to schedule the inspection.
- On 8/29/2024: Jayden Grimm of Hancock Claims Consultants came to perform the inspection.
- On 9/3/2024: We got a phone call from Farmers and was told the claim was denied.
- 0n 9/5/2024, we submitted photos of hail damages to windows to Farmers.
- On 9/5/2024, Farmers re-opened the claim
- On 9/5/2024, Farmers adjuster Nic Brau called to schedule the second inspection.
- 0n 9/6/2024, Nic came to perform the inspection. We showed him the window leaks and the external hail damages to the windows. We found some new dents together.
- We continued to look for hail damage evidence and sent additional photos of evidence to Nic on 9/8/2024, 9/10/2024.
- On 9/10/2024, received an email from Nic Brau that Farmers would hire another inspector, Nathan Prieve, to inspect the windows.
    - On 9/16/2024, the schedule with Nathan was setup for Nathan to come on 10/9/2024
- On 9/11/2024, we stopped by our agent's office. Peter Pietila (our agent) said damages need to be documented before inspector comes.
- We continued to spend early morning before work and late evenings after work to look for hail damage evidence on the windows that we can reach and created an document.
- On 10/9/2024, Nathan came to perform the inspection. We handed him a copy of the document upon his request.
- On 11/4/2024, the claim was denied again by Farmers.
- On 11/7/2024, We talked to our agent Pete and he sent us the Report from Nathan with all the photos attached:
    - **There are many photos in the report showing dents on many windows.**
    - **The report also concluded that there has been no hail in our area after Aug 2020.**
- On 11/8/2024, after reviewed the report and photos, we wanted to talk to Nic for our questions. We sent an email to request a meeting with him.
    - On 11/11/2024, we got response from Nic: "I have received your email, and we have already responded with our finding/outcome in the letter/engineer report that I have attached and that was sent to you on 11/4/2024."

- On 11/19/2024, submitted the compliant to the Minnesota Department of Commerce (Complaint ID is 93547).
    - Have been working with Katherine Toomajian on this issue.
- On 1/31/2025, we went to Pete's office (our agent). We asked Pete what we should do and he gave us the contact information of Bradlee Monson, the field claim supervisor.
- On 1/31/2025, after the meeting Pete, sent emails to Bradlee and Nic, attached the documents:
    - A letter that stated we disagreed with the conclusions from the Engineer report and requested Farmers to review the additional facts/evidence.
    - Evidence of recent hail damages
    - Summary weather information from Stormersite.com showing there are major hailstorms in 2022, 2023, and 2024 in Eden Prairie area.
    - All these documents have been uploaded to Farmers claim center as well.
- On 2/3/2025, Called Bradlee and asked him to review the documents we sent over.
- On 2/3/2025, after the conversation with Bradlee, we went to Department of Commerce and talked to Katherine. She suggested us to go to City of Eden Prairie to get the list of our neighbors who did exterior work in last couple years and talked to neighbors to see if their work is related to hail damage.
- On 2/3/2025, we went to City of Eden Prairie to make the request. The city told us the list would be ready the next day.
- On 2/4/2025, we went to City of Eden Prairie and got the list.
- From 2/4/25 to 2/7/25, under very cold condition, we knocked over 40 neighbors' doors and was able to talk to 19 of them. For those 19 families, 14 of them said their properties were damaged by hails and cost for repairs are covered by insurance based on the approved hail damage claims.
- On 2/10/2025, submitted one more response to Farmers' final inspection report, summarized the results from our talks with neighbors:
    - There are hailstorms damaged our neighborhood in 2023 ad 2024.
    - We requested Farmers again to review these new facts/evidence.
- On 2/10/2025, got a voice mail from Nic Brau of Farmers, saying they won't look at these facts/events.
- On 2/12/2025, Sent the above response (sent on 2/10/2025) to Farmers to Katherine of the Department of Commerce.
- On 2/13/2025, Katherine forwarded the above information to her director to additional review, but they are not able to take additional administrative action.
- From 2/14/2024 to 4/23/2025, we have been away from our home due to international travel.
    - After we got back, we went to talk to Katherine, and she recommended us to take legal action as next step.
    - After got her recommendation, we have been talking to attorneys.

- On 5/28/2025, we went to Pete's (our agent) office.
    - We shared the new findings with him:
        - The weather report from interactive and
        - An article from National Weather Service for the July 13-14 storms (strong wind and hail) that impacts Eden Prairie; it also reports that there are hail stones up to 4 inches in some areas.
    - We reiterated our request: Farmers should review these new facts and evidence and reevaluate the claim. They can't just ignore the facts and evidence and refuse to do anything about them
    - Pete uploaded the new facts to their system and asked the claim team to review.
    - As of now (6/18/2025), there has been not any feedback from Farmers on this matter.
- On 6/06/2025, we went to the Department of Natural Resource and Talked to Marvin. Marvin recommended us to go to FOX9 to get weather reports.
- On 6/06/2025, after talking to Marvin, we went to FOX9 office in Eden Prairie and talked to Mike, the head of security. He asked us to call or email to make appointment.
- On 6/8/2025 (Sunday), we sent an email to FOX9 to request an appointment.
- On 6/9/2025 (Monday), we called FOX9 and left a message to request an appointment.
- On 6/9/2025, we went to Minnesota Bar Association, and they recommended us to call Minnesota Lawyer Referral and Information Service.
- On 6/9/2025, we went to Hennepin County Law Library and got some help from Librarian there.
- On 6/10/205, we made a referral request with Minnesota Lawyer Referral and Information Service and paid $30 service fee.
- On 6/11/2025, we got response back from Minnesota Lawyer Referral and Information Service: "… Unfortunately, we do not have an attorney available to pursue your claim through the referral service. Your credit/debit card hold has been cancelled …"
- On 6/17/2025, we went to Hennepin Government Cetner's Self Help Center and got a package on how to start a lawsuit in civil court. The people in that office are very knowledgeable and helpful.
- On 6/18/2025, we went to Self Help Center to talk to John (volunteer lawyer).
- On 6/178/2025, we went to Legacy and talked to Pat. Pat called the Attorney General Office to explain our situation (Farmers refused to review any new facts and evidence) and he helped us creating a Consumer Assistance Request (ID: 6260735278129023664).

Submission ID: 6260735278129023664

To Whom It May Concern:

Pat from Legacy helped us created the Consumer Assistant Request this morning and we wanted to provide additional information.

Our property was damaged by wind/hailstorm last year. There is obvious evidence of dents on many windows: there are photos from our documents submitted to Farmers and from their own engineer reports. But they still denied the claim.

After we received the denial letter on 11/4/2024 and the photos associated the report on 11/7/2024, we requested a meeting with Nic Brau, the Farmers' adjuster but it was rejected (refer to the email response from Nic below).

We submitted additional facts/evidence on 1/31/2025 and 2/10/2025 and requested Farmers' to review them and reevaluate the claim, they refused to do so (refer to the screenshot of the transcription of the voice mail below).

On 5/28/2025, we went to our agent's office to share the new facts and requested Farmers to respect all the facts and evidence and give a fair treatment of our claim. Our agent uploaded the new fact and asked the claim team to review them. There has been no feedback from Farmers as of today. They refused to respect the facts/evidence again.

We need your help to get this issue resolved. We pay insurance to get the coverage for damages caused by natural events such as wind/hailstorm. We are doing our part by paying the premium on time and they need to do their part to cover the hail damage to our property.

Please let us know if there is any questions or any information is needed.

Thank you very much for your attention and assistance on this matter.

Claim#: 7007986837-1

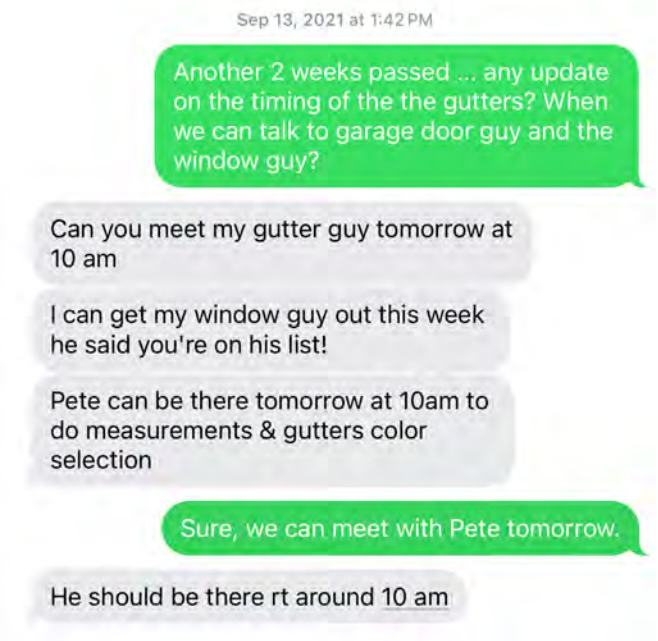
Major hailstorms since 2020 in this area

https://www.stormersite.com/hail_reports/eden_prairie_minnesota/all says there were multiple hailstorms within 10 miles of Eden Prairie city center:

- There were 22 hail reports in 2020 and the largest hail was 2 inches
- There were 4 hail reports in 2022 and the largest hail was 2 inches
- There were 8 in 2023 and the largest hail was 2 inches,
- There was 1 in 2024 and the hail was 1.25 inch.

Our gutter/downspout was replaced later than September 2021. There is obvious hail damages showed in the photos of the above report.

- This text message with contract shows that the gutter/downspout was replaced after 9/13/2021:



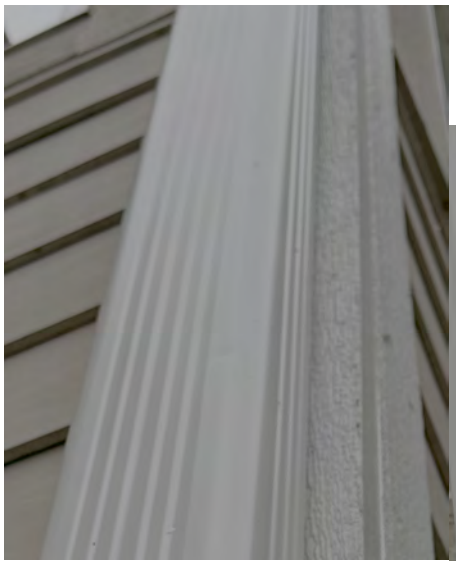
- Obvious evidence of hail damages to the downspout from west, south, east and north:

West facing Dining room

West facing by the front door

South facing, north of fireplace

South facing, south of fireplace



East facing, by kitchen.

North facing, by garage

Significant Wind and

Overview

Preliminary information as of July 14, 2024.

Multiple rounds of thunderstorms led to widespread wind and hail damage across parts of Minnesota and Wisconsin on July 13 into the morning of July 14.

Scattered clusters of storms resulted in large hail over portions of east-central Minnesota during the afternoon on July 13. One storm produced a brief tornado in Rice County. A line of storms then developed over northwestern Minnesota during the evening and travelled southeast across central Minnesota throughout the night. This line led to numerous reports of hail and wind damage before it weakened as it moved into Wisconsin.

An unusually warm and humid air mass resulted in heat index values greater than 100F across portions of southern and western Minnesota during the afternoon and evening of July 13. The combination of several thunderstorms and persistent cloud cover kept heat index values in the low to mid 80s further east.

Map of severe storm reports on July 13 and 14. The most up to date list of reports can be found here.

Tornado | **Wind & Hail** | Radar | Heat Indices

Wind & Hail:

Widespread reports of wind damage and large hail occurred with the several rounds of thunderstorms from July 13 to 14. Some of the largest hail came out of a strong supercell that formed in eastern Minnesota during the afternoon of July 13, with reports of up to 3.5 inches in diameter. The line of storms overnight resulted in numerous downed branches and trees stretching from Alexandria to the Twin Cities, MN. Pockets of large hail were embedded within the line, with hail stones up to 4 inches in diameter reported near Monticello and Big Lake, MN.

Wind

Large tree branch snapped in Golden Valley near the intersection of Laurel Ave and Rhode Island Ave around 1am on July 14. Picture taken by Brian Wright (@BrianWright14 on X).

Large tree (roughly 16-21 inch base) uprooted near the main campus of Minneapolis College of Art and Design around 1:10am on July 14. Picture taken by K Vigneur (@lost_one71 on X).

Large tree and numerous branches down near Wolfe Park in St Louis Park, MN around 1:05am on July 14. Picture taken by Ellen Lewin.
