CONFIDENTIAL

Sent email response to the customer.

Mr. Lu,

All the information we can release has already been sent to you. The claim was settled per the binding appraisal award received. The loss is under your
deductible. If you need information as to why additional windows were not included in the award then you will need to contact your appraiser to obtain that information.

-Nicholas Brau (10/29/2025 14:43:35 PM GMT)

CLAIMS CHAT

Received chat from agent seeking property field claim office for MN. Advised all BCO have closed. Reminded agent that claim is CAT claim, provided CR contact

CONFIDENTIAL

CORRECTED REPORT:

I documented the damage to the windows on the front right, and the rear elevation in the family room. The windows were manufactured by Senco and had manufacturer stamps in the sashes from 1993, 1997, 2008.

-Zorphlon Miller (09/19/2025 18:46:10 PM GMT)

CONFIDENTIAL

Agent Call: Spoke to Tyler. He was in the dark about what is going on. The agent is out this week. The customer went into the office needing additional information since their contractor estimate was $350K. GA reviewed the outcome, read him the final report, and advised I called the customer on yesterday - no response. GA advised the appraiser may know what the notations are on the award. GA could not assume, but based on the report, it may be the location of the windows. GA referred the customer to his appraiser for additional details - as the umpire did not provide an estimate. He understood and thanked me for my help!

-Zorphlon Miller (09/17/2025 16:54:12 PM GMT)

CONFIDENTIAL

Customer Contact Attempt: GA called Mr. Lu. GA left a detailed message advising of the completion of the appraisal process. GA provided my contact information for a return call to discuss further.

GA called Ms. Hu. She is listed as the main contact for the claim. No answer. Left a detailed message.

-Zorphlon Miller (09/16/2025 14:06:13 PM GMT)

CONFIDENTIAL

APPRAISAL AWARD REVIEW:

We have a 2-signature award signed by the umpire and OA. Mr. Tomes, carrier appraiser, did not sign the award. The scope of damage was increased to allow for window damage due to hail. No estimate provided by umpire.

Prior Claim Damage: GA reviewed prior claims and confirmed depreciation was released for repairs.

Report Details:

DISPUTE DETAIL
The repair estimate provided by your office had an RCV value of $0.00. The demand estimate of $365,393.59 was written Pure Co Roofing LLC and included the following repair scope:
- Repair of siding, clean & paint siding
- Replacement of windows per Pella Window bid
- Debris removal
- GCO&P
- Labor minimum allowance

EXTERIOR ELEVATIONS
Windows
I documented the damage to the windows on the front right, and the rear elevation in the dining room. The windows were manufactured by Senco and had manufacturer stamps in the sashes from 1993, 1997, 2008. The left window on front elevation in the Dining Room has hail damage that matched the prior claim photos. The pre-existing damage to the dining room window was not considered in the award.

AWARD
Upon completion of the inspection, I met with the OA and the Umpire. At this time, we discussed the damage found during the inspection of the property. The award includes the replacement of the front facing window on the right elevation. Additionally, the three windows in the family room on the rear elevation are included in the award. I declined to sign the award as I am in agreement with the scope of repairs, but do not agree with the date of loss.

The original coverage positions was a denial. In an effort to resolve this dispute, we are moving forward with settlement per the appraisal award as issued for this claim. The award falls below the policy deductible. Thus, no payment will be issued. GA will draft letter, pay invoice, and notify customer of the outcome.

CDE: N/A

-Zorphlon Miller (09/16/2025 13:40:17 PM GMT)

CONFIDENTIAL

The appraisal award documents have printed to the claim file.

The package is under review for processing in a timely manner.

-Zorphlon Miller (09/15/2025 14:04:25 PM GMT)

STATUS:

Here is the umpire's invoice for payment on this appraisal matter. Their EIN is on the invoice, but Greg can ask for a W9 if needed. This is one where the inspection isn't scheduled until 9/12/2025, but the OA has insisted that the umpire be present at the inspection, which seems to be the case on everything we get in MN right now.

Please tender payment at your earliest convenience. Greg will be meeting the panel for the inspection on 9/12/2025.

-Zorphlon Miller (09/08/2025 18:21:08 PM GMT)

CONFIDENTIAL

STATUS:

The inspection is scheduled to be completed on 9/12/25.

-Zorphlon Miller (09/05/2025 19:36:15 PM GMT)

CONFIDENTIAL

STATUS:

Greg and the OA have agreed to use Wade Roos for an umpire, but they are still trying to get this one scheduled. I'll let you know as soon as the inspection is confirmed.

-Zorphlon Miller (09/02/2025 18:25:06 PM GMT)

CONFIDENTIAL

Reassignment to PFST to address the appraisal request:

Customer Contact Attempt: GA called Mr. Lu. No answer. GA left an introduction message and provided my contact information for a return call.

The request lists the disputes as the windows, siding, and paint siding. The interior damages are not listed.

GA has conducted a file review of the prior claims, file activities, and policy coverages. Prior claims for two hail claims have been documented. 2020 claim paid for roof and gutter replacement. It appears no overlapping to this loss.

Engineer Evaluation: Damage to windows and interior leaking is not related to hail. Denial letter was sent.

Contractor Estimate: $366K to replace windows, siding, paint, GC fees.

POL in file with no signature. GA will send an acknowledgement letter.

GA will accept appraisal, send docs, monitor process, status customer, and conclude based on the award findings.

OB call to agent @ 612-220-0342. Spoke to Agent (Pete). Advised that I was made aware of the claim and had reviewed the details and reports as well as the additional documents sent in and that our position had not changed regarding the damages. He advised he understood and agreed but that the insured continually insisted on stopping by the office each week and having him submit new paperwork so he was just trying to appease them. I advised I understood but wanted to make him aware that the insured had actually located the engineer we had used (Nathan Prieve 612-203-2745) and had shown up at his home address yesterday and staked out his house until they could get him to come outside. Advised they were there somewhere between 30-60min. Agent advised this didnt surprise him as the insureds wife had

come to the office last week and was speaking so animatedly regarding the claim that another customer in the office called the police for a welfare and keep the peace check. He advised he would make note of their actions but didnt feel comfortable approaching them. I advised I understood and would let the FCR know.

Called Yibiao Lu and left v/m that we received his new email/information however this is not an engineers report that we were looking for, advised to call back with any questions.

-Nicholas Brau (02/10/2025 17:06:11 PM GMT)

I spoke Yibao and he wanted to discuss the information he submitted showing a hail storm in his area along with pictures. I explained to him that we sent out an engineer to review his window damage and the result is that the window damage is not consistent with hail damage. He wanted to know what he needed to do to get us to replace the windows. I explained that he could send in his own engineers report that is peer reviewed. I explained that if he did to this, it would be at his own cost. We would review the information for further coverage consideration. He wanted to know what could cause the damage besides

hail. I explained that I did not want to speculate on the possible cause of damage to his windows. He told me that the windows are very hard and it would take strong hail to damage. I explained that the metal cladding is not extra hard it is more of a protection for the wood behind it. He then asked me how all of his windows could be damaged. I explained that all of them being damage is not consistent with hail damage since hail is directional. I ended the call by explain that our coverage decision stands pending additional information for review. I explained that I would not be able to overturn the decision of an engineer from this call today.

-Bradlee Monson (02/03/2025 16:32:47 PM GMT)

CONFIDENTIAL

Received engineer report and no new storm related damages to the home, wear/tear sending letter to the customer with report no damages.

CONCLUSIONS AND RECOMMENDATIONS:
After visiting the site, reviewing available data and documents, and based upon the training and expertise of the investigator, we have formed the following conclusions and recommendations to a reasonable degree of engineering certainty.
Prieve Engineering LLC reserves the right to supplement or amend the report pending further discovery. Any and all recommendations in the report are for budgeting and estimating purposes only and are not for permitting and/or construction. Detailed recommendations for permitting and construction will require separate stamped drawings and contract. Prieve Engineering LLC is not the Engineer of Record for the subject structure.
1) It is our opinion that no recent hail damage has occurred to windows in the subject structure related to any recent hail or other storm activity. Past storm data indicates a storm occurred on or around August 9, 2020 in the area. This is consistent with past claims including replacement of the roof due to hail damage. We note that prior claim estimates

and information include 2 windows in the home noted for potential hail damage and replacement including the main level window to the left of the main entry and north facing window at the rear four season porch. Dents shown in prior claim photographs are similar to those observed during the site inspection. Given these 2 windows have already been included and we understand paid for due to prior storm activity, no additional payments in our opinion are appropriate for the 2 windows.
2) It is our opinion that no other damage occurred to windows around the home due to hail or any other catastrophic causation that warrants any repair or replacement. Dents and scrape marks appear at various areas of windows around the home not constant with hail. Dents noted at sashes and frames in our opinion include scrape marks inside dents consistent with impacts from blunt objects other than hail. Dents in accessory grooves are consistent with impacts other than hail or damage occurring during or following installation of windows at the time of construction of the home. Further, it is our opinion that past hail at the site was not of sufficient size to dent window frames or the face of sashes. No repairs or replacement of any further windows is warranted or required at the subject property due to hail or any other catastrophic causation other than the 2 windows already included and paid in prior claims.
3) It is our opinion that reported water leakage and water entry at windows is unrelated to hail or any other catastrophic causation. Stains present on walls at certain windows in our opinion are consistent with condensation and/or leakage through windows. We note that many windows have various applications of caulking at exterior sashes and frames consistent with past attempts to prevent water entry. Areas of staining and deterioration appear at the interior of windows consistent with long term aging and deterioration to units. The conditions observed at windows, including reported leakage and water entry, in our opinion relate to wear and tear and aging of units and are unrelated to hail or any other catastrophic causation. No repairs or replacement of windows are warranted as relates to hail and alleged leakage of units.
4) It is our opinion that the siding penetration at the rear upper level of the home is unrelated to hail. Marks appear inside the penetration consistent with an impact from a blunt object other than hail. Further, recent storm activity in the area generally consists of storms moving from west to east with hail originating from a westerly direction. The penetration in siding appears at the east side, opposite typical origination of hail in recent storm activity in the area. No repairs in our opinion are warranted to siding as relates to hail.

-Nicholas Brau (11/04/2024 19:59:34 PM GMT)

CONFIDENTIAL

Appt set now for

2pm on Oct 9th

-Nicholas Brau (10/07/2024 12:09:34 PM GMT)

CONFIDENTIAL

Nic,
I was able to talk with Bill today and have an inspection scheduled for October 9 at 10 am. I advised him that I would let him know if anything opens up in my schedule before then but at least something is on the calendar. His concern relates to leakage he stated is occurring through windows in the home which is why he wanted an inspection ASAP. My understanding at this point is that there is no concern regarding the roof and that the main areas to be inspected include all windows and other exterior wall areas of the home along with observing the interior at areas where leakage is reported. Let me know if anything else is included in the claim that should be included in the inspection.

Respectfully,
Nathan Prieve PE

Additional Inspection Info

Received additional inspection photos showing the exterior from Hancock- I conclude that there is no exterior damage. There is wind-driven rain damages inside around the windows. There was no opening created by the direct force of wind or hail that allowed water to enter and cause damage. There is no coverage for interior water damage without a storm created opening.

There is no coverage for this claim.

-Christian Dudley (08/31/2024 23:37:14 PM GMT)

BACK-UP CR ASSIST

received photos from Hancock - there were only interior photos showing

called Hancock - Jayden - 507-327-2595 - discussed claim - he stated the insured was adamant the only thing that needed to be inspected was the windows on the inside where they were leaking - he started doing the exterior and they did not want the roof inspected - Mrs. insured was very concerned about needing to get the windows replaced - they told him they were the original windows for the house - asked if he has any photos of the exterior for those windows - he stated he believes he has some, he will double check and will upload them if he does, if not he will go back out tomorrow and get photos of the exterior - no storm damage was found during the inspection

-Jessica Koch (08/30/2024 23:24:31 PM GMT)

Sent email response to the customer.

Mr. Lu,

All the information we can release has already been sent to you. The claim was settled per the

binding appraisal award received. The loss is under your deductible. If you need information as to why additional windows were not included in the award then you will need to contact your appraiser to obtain that information.

CORRECTED REPORT:

I documented the damage to the windows on the front right, and the rear elevation in the family room. The windows were manufactured by Senco and had manufacturer stamps in the sashes from 1993, 1997, 2008.

	CONFIDENTIAL	**Agent Call: Spoke to Tyler. He was in the dark about what is going on. The agent is out this week. The customer went into the office needing additional information since their contractor estimate was $350K. GA reviewed the outcome, read him the final report, and advised I called the customer on yesterday - no response. GA advised the appraiser may know what the notations are on the award. GA could not assume, but based on the report, it may be the location of the windows. GA referred the customer to his appraiser for additional details - as the umpire did not provide an estimate. He understood and thanked me for my help!**

APPRAISAL AWARD REVIEW:

We have a 2-signature award signed by the umpire and OA. Mr. Tomes, carrier appraiser, did not sign the award. The scope of damage was increased to allow for window damage due to hail. No estimate provided by umpire.

Prior Claim Damage: GA reviewed prior claims and confirmed depreciation was released for repairs.

Report Details:

DISPUTE DETAIL
The repair estimate provided by your office had an RCV value of $0.00. The demand estimate of $365,393.59 was written Pure Co Roofing LLC and included the following repair scope:
- **Repair of siding, clean & paint siding**
- **Replacement of windows per Pella Window bid**
- **Debris removal**
- **GCO&P**
- **Labor minimum allowance**

EXTERIOR ELEVATIONS
Windows

I documented the damage to the windows on the front right, and the rear elevation in the dining room. The windows were manufactured by Senco and had manufacturer stamps in the sashes from 1993, 1997, 2008. The left window on front elevation in the Dining Room has hail damage that matched
the prior claim photos. The pre-existing damage to the dining room window was not considered in the award.

AWARD
Upon completion of the inspection, I met with the OA and the Umpire. At this time, we discussed the damage found during the inspection of the property. The award includes the replacement of the front facing window on the right elevation. Additionally, the three windows in the family room on the rear elevation are included in the award. I declined to sign the award as I am in agreement with the scope of repairs, but do not agree with the date of loss.

The original coverage positions was a denial. In an effort to resolve this dispute, we are moving forward with settlement per the appraisal award as issued for this claim. The award falls below the policy deductible. Thus, no payment will be issued. GA will draft letter, pay invoice, and notify customer of the outcome.

Related To	**Claim**		**Reassignment to PFST to address the appraisal request:**
	CONFIDENTIAL		**Customer Contact Attempt: GA called Mr. Lu. No answer. GA left an introduction message and provided my contact information for a return call.**
			The request lists the disputes as the windows, siding, and paint siding. The interior damages are not listed.

GA has conducted a file review of the prior claims, file activities, and policy coverages. Prior claims for two hail claims have been documented. 2020 claim paid for roof and gutter replacement. It appears no overlapping to this loss.

Engineer Evaluation: Damage to windows and interior leaking is not related to hail. Denial letter was sent.

Contractor Estimate: $366K to replace windows, siding, paint, GC fees.

POL in file with no signature. GA will send an acknowledgement letter.

GA will accept appraisal, send docs, monitor process, status customer, and conclude based on the award findings.

as well as the additional documents sent in and that our position had not changed regarding the damages. He advised he understood and agreed but that the insured continually insisted on stopping by the office each week and having him submit new paperwork so he was just trying to appease them. I advised I understood but wanted to make him aware that the insured had actually located the engineer we had used (Nathan Prieve 612-203-2745) and had shown up at his home address yesterday and staked out his house until they could get him to come outside. Advised they were there somewhere between 30-60min. Agent advised this didnt surprise him as the insureds wife had come to the office last week and was speaking so animatedly regarding the claim that another customer in the office called the police for a welfare and keep the peace check. He advised he would make note of their actions but didnt feel comfortable approaching them. I advised I understood and would let the FCR know.

I spoke Yibao and he wanted to discuss the information he submitted showing a hail storm in his area along with pictures. I explained to him that we sent out an engineer to review his window damage and the result is that the window damage is not consistent with hail damage. He wanted to know what he needed to do to get us to replace the windows. I explained that he could send in his own engineers report that is peer reviewed. I explained that if he did to this, it would be at his own cost. We would review the information for further coverage consideration. He wanted to know what could cause the damage besides hail. I explained that I did not want to speculate on the possible cause of damage to his windows. He told me that the windows are very hard and it would take strong hail to damage. I explained that the metal cladding is not extra hard it is more of a protection for the wood behind it. He then asked me how all of his windows could be damaged. I explained that

all of them being damage is not consistent with hail damage since hail is directional. I ended the call by explain that our coverage decision stands pending additional information for review. I explained that I would not be able to overturn the decision of an engineer from this call today.

CONFIDENTIAL

CONCLUSIONS AND RECOMMENDATIONS:
After visiting the site, reviewing available data and documents, and based upon the training and expertise of the investigator, we have formed the following conclusions and recommendations to a reasonable degree of engineering certainty.
Prieve Engineering LLC reserves the right to supplement or amend the report pending further discovery. Any and all recommendations in the report are for budgeting and estimating purposes only and are not for permitting and/or construction. Detailed recommendations for permitting and construction will require separate stamped drawings and contract. Prieve Engineering LLC is not the Engineer of Record for the subject structure.
1) It is our opinion that no recent hail damage has occurred to windows in the subject structure related to any recent hail or other storm activity. Past storm data indicates a storm occurred on or around August 9, 2020 in the area. This is consistent with past claims including replacement of the roof due to hail damage. We note that prior claim estimates and information include 2 windows in the home noted for potential hail damage and replacement including the main level window to the left of the main entry and north facing window at the rear four season porch. Dents shown in prior claim photographs are similar to those observed during the site inspection. Given these 2 windows have already been included and we understand paid for due to prior storm activity, no additional payments in our opinion are appropriate for the 2 windows.
2) It is our opinion that no other damage occurred to windows around the home due to hail or

any other catastrophic causation that warrants any repair or replacement. Dents and scrape marks appear at various areas of windows around the home not constant with hail. Dents noted at sashes and frames in our opinion include scrape marks inside dents consistent with impacts from blunt objects other than hail. Dents in accessory grooves are consistent with impacts other than hail or damage occurring during or following installation of windows at the time of construction of the home. Further, it is our opinion that past hail at the site was not of sufficient size to dent window frames or the face of sashes. No repairs or replacement of any further windows is warranted or required at the subject property due to hail or any other catastrophic causation other than the 2 windows already included and paid in prior claims.

3) It is our opinion that reported water leakage and water entry at windows is unrelated to hail or any other catastrophic causation. Stains present on walls at certain windows in our opinion are consistent with condensation and/or leakage through windows. We note that many windows have various applications of caulking at exterior sashes and frames consistent with past attempts to prevent water entry. Areas of staining and deterioration appear at the interior of windows consistent with long term aging and deterioration to units. The conditions observed at windows, including reported leakage and water entry, in our opinion relate to wear and tear and aging of units and are unrelated to hail or any other catastrophic causation. No repairs or replacement of windows are warranted as relates to

			hail and alleged leakage of units. **4) It is our opinion that the siding penetration at the rear upper level of the home is unrelated to hail. Marks appear inside the penetration consistent with an impact from a blunt object other than hail. Further, recent storm activity in the area generally consists of storms moving from west to east with hail originating from a westerly direction. The penetration in siding appears at the east side, opposite typical origination of hail in recent storm activity in the area. No repairs in our opinion are warranted to siding as relates to hail.**

Nic,
I was able to talk with Bill today and have an inspection scheduled for October 9 at 10 am. I advised him that I would let him know if anything opens up in my schedule before then but at least something is on the calendar. His concern relates to leakage he stated is occurring through windows in the home which is why he wanted an inspection ASAP. My understanding at this point is that there is no concern regarding the roof and that the main areas to be inspected include all windows and other exterior wall areas of the home along with observing the interior at areas where leakage is reported. Let me know if anything else is included in the claim that should be included in the inspection.

Respectfully,
Nathan Prieve PE
