INSPECTION FINDINGS & MY POSITION

INSPECTION

The property was inspected on 9/12/2025. The insured's appraiser and the umpire were present for the inspection.

PROPERTY INFORMATION

The property is a residential structure that was built in 1993 according to Zillow.

EXTERIOR ELEVATIONS

Windows

I documented the damage to the windows on the front right, and the rear elevation in the dining room. The windows were manufactured by Senco and had manufacturer stamps in the sashes from 1993, 1997, 2008.

The left window on front elevation in the Dining Room has hail damage that matched the prior claim photos. The pre-existing damage to the dining room window was not considered in the award.

AWARD

Upon completion of the inspection, I met with the OA and the Umpire. At this time, we discussed the damage found during the inspection of the property. The award includes

the replacement of the front facing window on the right elevation. Additionally, the three windows in the family room on the rear elevation are included in the award.

I declined to sign the award as I am in agreement with the scope of repairs, but do not agree with the date of loss.

DISCLAIMER

The appraisal award was made without consideration of any applicable coverage questions under the policy of insurance that applies to this loss. Deductible obligations and prior payments, if applicable, were not applied to the award amount(s). Should any endorsements that extend or limit coverage apply to this loss, they were not considered in the valuation of the observed damages, and may need to be applied, pursuant to the policy provisions and applicable laws, prior to any payments that may be owed.

CONCLUSION

Thank you for the opportunity to assist with your appraisal needs. If there are any questions, comments, or concerns upon your review of this file, please do not hesitate to contact Concise Resolution Services at apprasial@conciseresolution.com.

I will be closing my file with this report.
