==========

Attn: Twonda Miller, Zorphion Miller, Jed Jones

Today is a rainy day and our windows are leaking due to hail damage, I went to our agent for help and he told us to work with you to get the issue resolved.

As of now, 2 windows are approved: one 1-sash window at the corner of stairs facing front; and one 3-sash windows in family room facing back.

But pretty much all the windows were damaged, as evidenced by the photos submitted through the claim process. Why they are not covered?

Regards.

Yibiao (Bill)
